

# Spearing Travel Fund for Engineers

The Governing Body established a fund in memory of Kenneth Spearing as a result of a donation which he made to the College. The purpose of the fund is to promote technical and industrial visits abroad by students which are not part of their normal coursework or research.

Grants may be made from the fund to any resident member of the College in statu pupillari with preference to students studying one of the branches of Engineering including: civil, mechanical, electrical and electronic, aeronautical, chemical and manufacturing.

The total value of all awards will be approximately £400.

Applications should be made in writing and sent to me by noon on **Friday, 2 March 2012**. They should take the form of a brief justification of the purpose of the visit and an analysis of the costs involved. Successful applicants will be required to submit a report on their visit by 1 October 2012.
