SECTION II. ACCOMMODATION CHARGES with effect from 1 October 2021

1. Charges for College-provided accommodation are paid per quarter.

- Quarterly Scheme, All students living in College accommodation will be charged on this Scheme. On this scheme the quarterly charges starting at the beginning of October, January, and April cover the periods from 12:00 on the Thursday immediately before Michaelmas Full Term until the end of the Easter quarter (30th June). It is assumed that those on the *Quarterly Scheme* will remain on it until the end of June, but may be extended throughout the long vacation. This extension is normally possible at Owlstone Croft, but is not guaranteed for those living in main site accommodation.

2. Accommodation Charges

The charges numbered (i) and (ii) below are levied at the start of each term. Charges incurred under (iii) below relate to accommodation outside term. There is no reduction from a full period's charges in respect of occupation for less than a full period, except that:

- For mid-period changes of room within College provided accommodation the charges are apportioned on a daily basis between the rooms.
 - Arrivals later than the beginning of the period may have charges apportioned on a daily basis only if the room has not been reserved for them from the start of that period.
 - Provided that notice is given in writing to the Accommodation Officer before the end of November, February or May preceding the end of a quarter, or term, that the student intends to move out of College accommodation, no charge will be made for the non-occupation of that room in any subsequent period.
- (i) *Room Charges*, which vary according to room, are payable by all who reside in College provided accommodation. The level of charge reflects the fact that the nature of College buildings is such that it might not always be possible to maintain normal standards of service. The College will try to minimise such interruptions; no charge rebate will normally be granted in these cases.
- (ii) Where two students share one set of rooms, the charge payable by each is calculated by taking the basic room charge, adding a *Shared Set Supplement*, and dividing by two.

For 2021/2022:	The Shared Set Supplement is:	£1300.00 per qtr
	The average room charge per person for a shared set, including half of the Shared Set Supplement is:	£2,068 per qtr
	The average charge for a single bedroom is:	££2,030per qtr

(ii) Central Heating Charge

On the main College site central heating is provided from five days before Michaelmas Full Term until the College decides the outside temperature is warm enough to turn it off. Outside this period, room heating is the residents own responsibility. Central heating is metered per building under gas (see Appendix A1) and will be charged to the students' bill: for budgeting, allow £100 per term.

In Owlstone Croft central heating is provided from five days before Michaelmas Full Term until the College decides the outside temperature is warm enough to turn it off. Central heating is metered under gas for the whole site and charged to the students' bill.

If the central heating in an individual room fails and is not repaired within three working days of the fault being reported by the student on a Maintenance Requisition at the Porters' Lodge, a rebate of pro rata the central heating charge will be allowed for each day that room is without normal central heating. The rebate is not provided if the failure is building wide, as that is allowed for by metering. To claim the rebate, the student should supply to the Senior Bursar (a) the email showing the original date of report, and (b) the email returned by staff showing the date of repair. Claims on the basis of requisitions made by others similarly affected will not be accepted, except that if the Domestic Bursar publishes a notice declaring a heating rebate for certain rooms; it is not necessary for those affected to claim their rebates individually.

3. Quarterly Scheme Accommodation Charges – Main Site and Owlstone Croft

Charges are levied on the first day of each quarter (Oct, Jan, & Apr). If a student is required to move to another room during a vacation period, the charge will still be based upon the room that the student occupied for most of that term.

4. Houses and Flats Accommodation Charges

A quarterly charge is levied on the first day of each quarter (Oct, Jan, Apr and Jul). Arrivals later than the beginning of the quarter may have the charge apportioned on a daily basis only if the accommodation had not been reserved for them from the start of that quarter. Houses and flats are let for the academic year. If a student moves out before the end of June, the student will be liable for the charge until 30 June, or until the accommodation is re-let, whichever is the sooner. After paying the full first three quarters in any academic year, if a student wishes to remain in a College House or Flat during the long vacation, they may elect to be charged: *either* on a pro-rata daily basis until the day of departure; *or* one-half of the full quoted quarterly charge to pay for the period until the end of August and on a pro-rata daily basis from then until the departure date. Excess Residence rates are not applicable under this scheme.

A minimum of four weeks notice must be given in writing to the Accommodation Officer if a student intends to move out of College accommodation.

Students in houses and flats are responsible for paying all gas, electricity, water and sewerage consumption charges (see Appendix A1). Students in a College House are jointly responsible for these charges, which will be divided equally between them, unless they all agree to an alternative division. Students whose liability is less than the full Scheme C period will have their utility charges apportioned on a daily basis. Utility charges for each quarter of occupation, will be charged on the basis of actual meter readings in arrears.

5. Vacation Accommodation (other than Guest Rooms) – Main Site and Owlstone Croft

Charges for periods of accommodation during the summer vacation will be as follows:

- (a) Queens' students
 - (i) Residence of less than four weeks will be charged a daily charge equal to the *Excess Residence Daily Charge*. The excess residence charge for 2021/22 is £31.00 per day.
 - (ii) Residence of four weeks or more will be charged at the *Undergraduate Scheme termly charge* for the room occupied divided by 60 for each day.

- (b) Academic visitors from educational institutions
 - (i) Residence of less than four weeks will be charged a daily charge equal to 1.2 times the *Excess Residence Daily Charge*.
 - (ii) Residence of four weeks or more will be charged at the *Undergraduate Scheme termly charge* for the room occupied divided by 50 for each day.
- (c) Others
 - Residence will be charged a daily charge equal to the nightly *Guest-Room charge*. (See Section V below).

All such bookings must be arranged with the Accommodation Officer.

APPENDIX A1: Metered Services as at October 2020

At College, the electricity supply to all rooms is metered. At Owlstone Croft, the electricity supply to rooms is unmetered (electricity is included in the room charge, and total building consumption is considered when setting charges). Both College and Owlstone Croft have a metered gas supply, sub divided equally amongst the residents of a building. College Houses and Flats have metered supplies for both electricity and gas, and metered consumption and standing charges will be sub-divided equally amongst the residents. 65 Panton Street has separate electricity meters for each student room, in addition to communal gas central heating and hot water.

At College and Owlstone Croft, charges for water and sewerage services are included in the room-charge. Most College Houses, and all of the Boathouse Flats, have metered water supplies. At the houses and flats, charges for water and sewerage will be passed on to the residents.

In all cases, the utility services are registered in the name of the College; students must not seek “final accounts” from the utility-providers or to have the service terminated at the end of their occupation. The College can, on request, obtain meter readings and apportion bills accordingly.

Students are advised to take check readings of their house’s meters at the beginning and end of each quarter in order to verify the College’s charges, and at more frequent intervals in order to develop a sense of the rate at which they are using fuel.

At the College Flats, the telephone service is provided and owned by the College. Students must not seek to terminate the telephone service. Call charges will be passed on to students on their college bill.
