Undergraduate Tutors 2019/2020

Tutors provide support for students with specific academic-related problems or concerns that require attention (aside from support provided by the DoS). Tutors liaise with DoS, the University, with faculties and departments on the student's behalf. They are involved in processes that require a Fellow's intervention: funding for academic travel; supervision issues; change of course requests; underperformance; examination issues (including allowances); academic discipline; fitness to study; intermission and return to standing.
