## Golden Age of Science Fiction comes to Queens' Library

We are delighted to receive from Queens' College alumnus, Simon Mainwaring (1961-64) 617 sci-fi books! This gift adds a welcome further dimension to the Library's already diverse range of special collections. For more information about the collection please see the [Queens' Library Books Blog](#).

The collection is currently in the Library office & is searchable via an online listing which can be [accessed via this link](#). If you're curious about the collection or would like to borrow from it please just speak to a member of library staff, who will be happy to help.
