The Fellows of Queens’ wish to mark John Eatwell’s distinguished Presidency of the College by raising funds to support a key strategic need.

The President has chosen to endow a full College Fellowship without a subject bias, allowing maximum versatility to apportion teaching where it is most needed. The Governing Body is pleased to accord it the title

**A message from The President:**

“I will always treasure the memories of the generations of Queens’ men and women I have met and the marvellous things they achieve in their lives. And, I have seen first-hand the difference your support has made to the lives of our Fellows and students. Queens’ is being transformed by the endowment, so far, of one third of our sixty Fellowships to protect the supervision system, the hallmark of a Cambridge education.

The John Eatwell Fellowship will be a unique asset to the College, I’m pleased to say. It will allow Queens’ to respond to the changing academic landscape, meaning the College can remain a centre for brilliant research and teaching.”

---

**A message from the Senior Tutor, Dr James Kelly:**

“John Eatwell has presided over Queens’ for two decades. This Fellowship will allow us to recognize John’s superb leadership through years of dynamic change within the University and within Queens’. The Fellowship to bear John’s name will afford the College invaluable flexibility in attracting the very best University Lecturers to lead and to teach subjects within Queens’ where needs appear, often at short notice.”

**QUEENS’ COLLEGE, UNIVERSITY OF CAMBRIDGE**
