Help to celebrate 575 years of Queens'

The
575
Campaign

This year marks 575 years since Queens' College was founded by Margaret of Anjou and Andrew Dockett in 1448. To celebrate Queens' history and all that our community has achieved over the past 575 years, we hope that 57.5% of alumni will give to the College to ensure that Queens' remains a pillar of excellence for another 575!

your gifts will be matched pound for pound until we reach £20,000.

Your support is crucial in enabling Queens' College to continue providing its students with a first-class education in a beautiful, historic setting and allow them to seize every available opportunity, no matter their background.

Donations to the Unrestricted Fund are all the more vital in the current financial climate. Your generosity will help us support students through financial hardship and allow us to address the areas of greatest need in the College community.

To receive a celebratory 575 coaster, you need only make a one-off gift of at least £5.75 to the Unrestricted Fund. Of course, if you have the means we would be incredibly grateful for

larger gifts of £57.50 and £575, or perhaps even more! For those who wish to make this a regular gift (i.e. monthly, annually or quarterly), you will also become a member of *The 1448 Society* for regular givers. As a member of the Society, you would be entitled to several exclusive benefits which you can read about in greater detail on page 8.

To donate to Queens' and to receive your free celebratory 575 gift, please donate using the enclosed donation form or the online donation form on our website. Alternatively, contact development@queens.cam.ac.uk and a member of the Alumni Office team will be able to assist you.

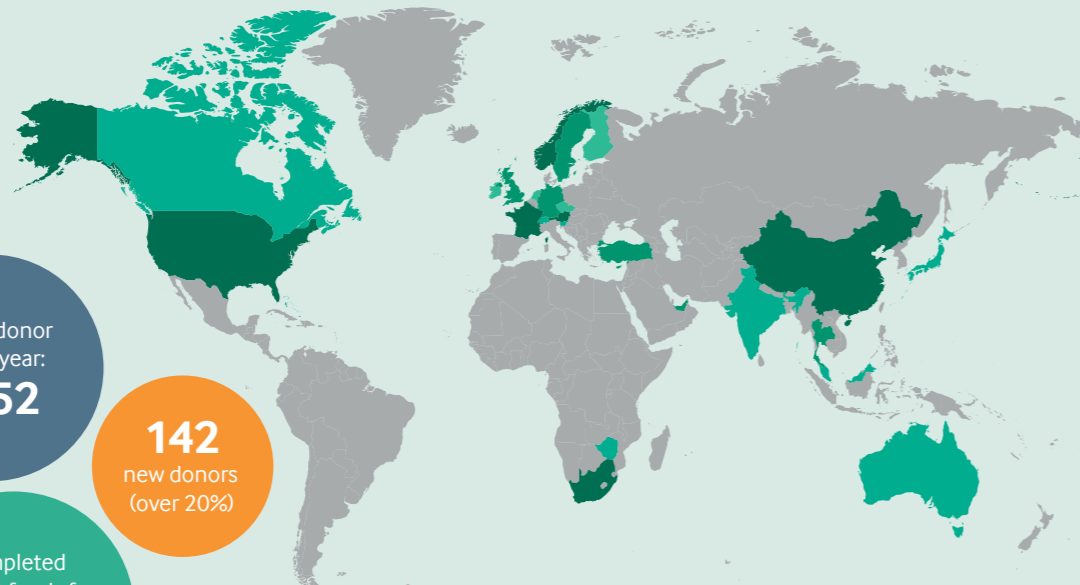

Dr Vihanga Munasinghe (front cover) was the first donor to this campaign.

Given this special occasion, as a celebratory gift we will be sending a limited-edition Queens' 575 anniversary coaster to all those who give to the 575 Campaign before it ends on April 15th 2024.

Your support will have double the impact thanks to a very generous donor who has pledged to match all donations received up to a total of £10,000! This means that

A Giving Day Thank You!

Engineering Subject Fund

"Although Queens' does not currently have an Engineering Subject Fund, since 2015 our undergraduates have benefited from a temporary arrangement made possible by more efficient, innovative College-based teaching, with the cost savings diverted to a financial support facility. The intervening eight years have seen a high demand for this facility, which we now wish to endow in perpetuity and extend to postgraduate students. An Engineering Subject Fund would help our students meet the costs of books, equipment, supracurricular courses and academic travel. Moreover, freed from financial pressures and the consequential need to seek paid employment during vacations, our undergraduates would instead be encouraged to pursue supracurricular projects and participate in social enterprises of a technical nature."

Professor Andrew Gee, Director of Studies in Engineering

Angus Chisholm (2022)

With support from the College, Angus Chisholm spent the summer of 2023 on a Summer Humanitarian Academy, organised jointly by Lingnan University in Hong Kong and Batangas State University in the Philippines. The photograph shows Angus meeting the Badjao people to talk about their water supply. With feedback from the villagers, Angus went on to improve an existing water testing kit supplied by Cambridge-based Waterscope.

The Squash Fund

We are delighted that *The Squash Fund* has nearly reached a quarter of the way towards its fundraising target of £100,000. The Fund aims to make squash more accessible, provide equipment for Queens' Squash Club, and help players enjoy and improve their game, in addition to enabling more social events for players old and new. Queens' has had seventeen squash Blues since the 1950s and was particularly dominant in the University scene during the 1960s, counting a British Champion, **Phil Ayton (1965)**, among our alumni. Phil reached a world ranking of number four in 1986.

The History Fund

Over £50,000 has been raised towards *The History Subject Fund* at Queens'. The Development Office aims to endow this Fund in perpetuity with £400,000 to support this growing subject. 11 undergraduate students are admitted in a typical year, and the Erasmus Society provides opportunities for Fellows and students to hold debates and invite academics to discuss their work. The Society opened up their talks to the whole College in the Munro Room, with Dr Andrew Lownie and Dr Emily Snyder in Michaelmas Term, and Dr Francis Young, Dr Eleanor Janega, and Dr Michael Joseph in Lent.

The last decade of Development at Queens'

2013 marked the beginning of a new chapter in the Alumni & Development Office at Queens'. The College welcomed a new Development Director, following on from the late Dr Diana Henderson. Since then, the Development Office has raised over £70 million for the College, ensuring that students from all backgrounds are able to experience an education at this historic institution, and that Queens' continues to offer an exceptional place to live, work and study in the future.

Rowan Kitt (Fellow) has held at least 1,200 individual meetings and conversations with alumni around the world. He has been on 40 trips abroad to over 18 countries, updating

alumni on the latest news from Queens' and encouraging members to stay in touch with the College and each other. Reflecting on his time in the Development Office, Rowan said, "What a privilege it has been to mark ten years at Queens'...a remarkable place doing remarkable things for students, Fellows, academics and staff. Thank you to everyone who has helped with the journey to date."

In that time, the supervision system has been cemented in place, partly through the endowment of more than twenty Fellowships. And, Queens' has become a college of choice for students seeking financial support for their extra-curricular activities and other costs.

Some of the highlights, just from 2023, include the creation of *The Rokos-Menon Senior Research Fellowship*, our largest single gift ever to support Cambridge Bursaries and Queens' Additional Bursaries; and the brand new *Queens'-Daim Zainuddin Scholarships* worth £600,000 per year to provide top up bursaries to postgraduate students from around the globe. The support of alumni throughout the decade has also meant that the College can respond to pressing issues such as the Covid-19 pandemic in an agile manner, establishing the Covid-19 Emergency Student Support Fund. *The Mairi Hurrell Fund* was also established to support students who would benefit from treatment and counselling for physical or mental health.

A selection of The Bridge covers from its launch in Summer 2014 to the present day

Regular giving has increased with the foundation of *The 1448 Society*, an initiative to bring together alumni and friends of the College who support Queens' on a monthly, quarterly or annual basis. In January 2013, 322 people made a regular gift, which had increased to 858 people by January 2023.

We have also been celebrating the philanthropy of alumni who kindly make larger contributions to the College. In 2013 there were just four Fellow Benefactors, whereas in 2023 we are delighted to count 16 among their number.

We have 17 subject funds including AMES, Natural Sciences, Classics and Economics. Recently established subject funds include *The James Russell Fund in Psychology and Behavioural Sciences* and *The Joan Whitehead Fund in Education*.

Fundraising News

The Fentiman Fellowship

Thanks to the generosity of our alumni and supporters, an endowment of £600,000 has been raised which will produce an annual amount to cover the cost to the College of a senior University Teaching Officer from the Faculty of Law teaching at Queens'. *The Richard Fentiman Fellowship in Law* is named in honour of one of our greatest Law academics, who retires from the Law Faculty this year.

The W1 crew after their success at Lent Bumps

A New Women's 1st VIII

We have successfully completed our fundraising campaign for a new 1st VIII for the QCBC women's side. A total of £50,000 - double our initial target - has been raised to cover the full cost of a cutting-edge Filippi shell. We are incredibly grateful to the Boat Club alumni who generously gave to this campaign and, in particular, to **Alex Bidlake (née Stout, 1995)**, a former QCBC women's captain who matched all gifts received until we hit a total of £20,000. W1 has seen successful Bumps campaigns in recent years, going +3 in Lent Bumps 2015, May Bumps 2019, Lent Bumps 2020, and blading in May Bumps 2023. They have also been successful at off-Cam races such as Women's Eights Head of the River Race and Henley Regatta. The women's boat will be named *The Paul Knights* after the Queens' Boatman to mark his contribution to the Club over 40 years and his upcoming retirement in 2024.

Promoting international cooperation & cultural exchange

We currently have hundreds of international students at Queens', reflecting the global community of scholars that are attracted to study here. A new society, which will be called the **'YMD Society'**, is being formed to promote cultural and political understanding between different nationalities. This has attracted funding for social events from a charitable foundation and guest speakers will be invited to talk with students on a regular basis. The partnership with this foundation will also offer a £7,000 scholarship for a postgraduate student studying any course offered by the faculty of Asian and Middle Eastern Studies. The inaugural YMD Society drinks reception was held in November in Old Hall.

Sundial conservation

A project to conserve the famous Dial in Old Court began this year following a generous donation from an alum to ensure the survival of this unique feature. The sundial, which was first recorded in its current location in 1642, was last refaced in 1971. Since then, the cement render on which the sundial was painted has gradually failed, necessitating the installation of stone backing and the careful removal of the previous facing following extensive examinations of the original surface. Since 2019 the sundial has been covered by a printed graphic of what the face should look like in readiness for it to be hand-painted, restoring the accuracy and aesthetics of the original dial. Various measurements can be made from the sundial in its completed state, including the time of day, time of year, month of the year, estimated date, time of sunrise and the bearing of the sun. To find out more about reading the sundial, scan the QR code.

The Joan Whitehead Fund in Education

There are around 40 undergraduate and postgraduate Education students at Queens' at any given time. The new Education Fund, enabled by the generous donations of alumni, students, Fellows and friends during the recent Giving Day, has been named for Dr Joan Whitehead. Dr Whitehead was Director of Studies for Education at Queens', lecturing in Psychology with a primary focus on gender issues. She was the former Senior Tutor of Wolfson College (2000-2004) as well as former Labour Councillor for the Abbey ward in Cambridgeshire. The Fund is named in honour of Dr Whitehead's advocacy and service to the University, and her service to the

city, particularly concerning opportunities for children and youth.

Dr Whitehead commented, "As a retired Director of Studies in Education at Queens' I am delighted that the College has set up this new Fund to help Education students and very happy to contribute towards it. Queens' has always been strongly supportive of the study of Education and Education students. Initially these were postgraduate students – those following the Postgraduate Certificate in Education (PGCE) or MPhil and PhD students. With the phasing out of the B.Ed degree, where all students entered the University via

Homerton College and the introduction of a new Education Tripos where students could be admitted by all Colleges, Queens' was one of the first to take up this opportunity and welcome ungraduated students studying Education. I was particularly pleased by this as I was the first course director and admissions co-ordinator for the new degree in the Faculty so it was great that the College of which I was Director Studies supported the new degree.

I am very honoured that the College has chosen to name the new Fund after me and for the continuing commitment and support of Queens' for students studying Education."

“Because of the nature of my research, I often have to work in archives all over the world. It can be really expensive to get to these archives, and many of the materials are not digitised yet. The Subject Fund in Education would be incredibly useful to travel to these sites, and to access materials that are not available in remote ways.”

Molly Rottmann (2020)

The James Russell Fund in Psychological & Behavioural Sciences

The new Subject Fund in Psychology and Behavioural Sciences has been named for Professor James Russell, a former Director of Studies in Psychology at Queens' and Professor of Cognitive Development in the Department of Psychology from 1987 to 2015. His work focused on cognitive development from infancy to middle childhood, philosophical psychology and language acquisition. PBS was established as a separate Tripos subject in 2013, and continues to grow in popularity and reputation at Queens'.

“Having the funds to ensure your research is well-powered, with large sample sizes, is one of the most important things in Psychology. The support from this new Subject Fund, to take these opportunities, meet people doing similar things and to connect with people higher up in your field could really boost our careers as psychologists.”

Lara Greening (2020)

Dr Mohamed El-Erian and Dr Liu Chak Wan signing the scholarship agreement

Dr Liu Chak Wan Postgraduate Scholarships

The Macau University of Science and Technology (MUST) has partnered with Queens' College to offer scholarships for its students commencing in 2024, supporting three exceptional Master's students from MUST to pursue their postgraduate studies in Cambridge. This has been made possible with the support of Dr Liu Chak Wan, the Chancellor of MUST. The President of MUST, Chair Professor Joseph Hun-wei Lee, commented, "I am glad that we can partner with Cambridge in offering our students the opportunity to study alongside the brightest minds in the world."

Members of The Arthur Armitage Society

This Society recognises our members who have generously left legacies to the College in their will. Your gift can be allocated to any project. To date legacies have helped provide postgraduate awards, establish a fund to look after and maintain the College gardens, digitalise manuscripts in the Old Library, renovate the College's historic buildings and to acquire new boats for the Boat Club.

1940

Mr Bob King †

1942
